English (B2), Russian (Native)

Experience

NEXT ON PRO

Frontend Developer

Jun 2025 – Jun 2026

- Developed ZenexHub, a crypto-fintech investment platform featuring wallet authentication, personal accounts, and RevShare investment pools
- Delivered 3 customer-facing products, including a fintech platform, landing page, and Telegram Mini App
- Implemented Web3 wallet integration and blockchain interactions using React, Next.js, and TypeScript
- Built scalable state management architecture with Redux Toolkit and RTK Query

VIDEO MARKETPLACE PLATFORM (NDA)

Frontend Developer

Apr 2023 – Jun 2025

- Developed marketplace platform from scratch using Next.js and TypeScript
- Implemented authentication, checkout, payment processing, and personal dashboard functionality
- Built a reusable UI component library used across 20+ application screens
- Led a team of 3 developers through successful MVP delivery

PROJECT HYDRO

Frontend Developer

May 2021 – Apr 2023

- Developed marketplace, authentication, social, and messaging features for a Web3 gaming ecosystem used by 10,000+ registered users using React and TypeScript
- Resolved 50+ critical production issues and contributed to application stability across multiple blockchain products
- Enhanced cryptocurrency exchange services through MetaMask integration and multi-chain support

SELF-EMPLOYED

Frontend Developer

Jan 2019 – Apr 2021

- Developed 10+ commercial web applications and CRM systems with KYC functionality, implementing responsive React-based interfaces, REST API integrations, unit testing, and Storybook documentation

Education

ST. PETERSBURG POLYTECHNIC UNIVERSITY

Bachelor of Science in Computer and Automated Systems Software
2012
